AMENDMENT AFTER FINAL

Dear Sir:

The Applicant has received the Final Official Action dated July 14, 2004. The Applicant appreciates the Examiner indicating that the only remaining rejections are double patenting rejections based on U.S. Patent No. 6,625,464 which is owned by the Applicant in this application.

As indicated in Paragraph 3 related to double patenting rejection, a timely filed terminal disclaimer may be used to overcome the double patenting grounds. An additional amendment to the specification is provided herewith as it relates to Paragraph 00054 for removing the imbedded hyperlink. This amendment is made under 37 C.F.R. § 1.16(b) and (c) and should place the claims in an allowable form and is enclosed herewith under the heading ****** Version Showing Changes Made *******.
